Referral Program

We are a referral-only business. What does that mean? It means that instead of spending our time and resources on advertising, we would rather spend our time and resources looking for better ways to provide you with exceptional service and value. As you may know, we are but one aspect of We Green You, who provides what we call the 5 P's of Green; People, Places, Pests, Pools and Permaculture.

The People aspect is Health Esteem, our nutrition education business, which offers one-on-one consultation, cooking classes and/or nutritional coaching by phone. The Places aspect provides an environmentally friendly home cleaning service, along with sustainable health and living inspections, which identify places in your home that contribute to toxic out gassing, ill health and disease. The Pests aspect is somewhat obvious. We offer Sustainable Pest Control for both indoor and outdoor pests including rats, as well as education for the prevention of disease causing vectors, which are occurring from climate changes. Pools are Healthy Pools. And Permaculture is currently being outsourced to Occidental Arts and Ecology Center's Brock Dolman and Kendall Dunnigan, who own Permatopia.

If you send us a referral, we will send you a gift. Should that referral become a customer, we will give you the choice of one of the following: a week of pool service, an hour of home cleaning, a nutritional consultation or a free pest inspection. Should you refer more customers our program will reward you with some very fun and interesting benefits or you may take them in trade for services altogether.
